

Allan Foote

AI Application Developer · Business Systems Analyst

(210) 834-8031 | afoote99@gmail.com | [linkedin.com/in/allan-foote](https://www.linkedin.com/in/allan-foote) | github.com/afoote99

Builder of AI-powered products, end to end. Ship LLM applications with Claude and OpenAI — voice, vision, structured outputs, and agentic workflows — while translating business needs into working software. 15+ self-built projects, 7 with live AI integration.

EXPERIENCE

Business Systems Analyst

May 2024 – Present (Intern → Full-time)

Valero · San Antonio, TX

- Identified inefficiencies in marine commercial workflows and designed automation that cut manual workload ~50%.
- Led functional design for the IMOS–SAP integration — translating business workflows into system requirements and aligning stakeholders with developers.
- Drove end-to-end delivery of SAP enhancements (discovery → requirements → development → testing → go-live) and triaged high-volume production issues across commercial systems.

HX Endpoint Engineer Intern

Apr – Aug 2023

Trellix · Draper, UT

- Investigated and mitigated 100+ threat incidents; managed IAM roles and access controls for secure client environments.
- Analyzed triage reports to identify and classify malware and security threats.

Owner / Chief Operating Officer

Apr 2020 – Dec 2022

TooCoolSodas (DBA FiiZ Drinks) · San Antonio, TX

- Founded and scaled a multi-location retail business from concept to brick-and-mortar — market validation, launch, hiring, and team management.
- Redesigned the order workflow (+90% customer satisfaction, ~20% faster delivery) and negotiated supplier contracts saving \$60,000+/year.

Project Manager

Aug 2023 – Apr 2025

Dining Services — Brigham Young University · Provo, UT

- Led a cross-functional team of 11 to deliver ~300 advertising projects; built an automation system that cut manual time-entry ~90%.

PROJECTS — SELECTED (AI / FULL-STACK)

- Kinaroo** — voice-first lifelong journal that turns speech into accurately dated life-stories using Claude Opus 4.8 structured-output extraction (told-date vs. happened-date temporal modeling) + Deepgram transcription. Next.js / Prisma.
- Process Oracle** — records on-screen workflows and uses Claude vision to auto-generate step-by-step process documentation, cutting onboarding and knowledge-transfer time. Python / FastAPI, Anthropic SDK. [demo](#)
- Pulse** — anonymous workplace-feedback platform that uses GPT-4o-mini to cluster raw feedback into actionable issue cards with a leadership analytics dashboard + Deepgram voice input. React / Express.
- LeagueCoach** — real-time game coach fusing Riot's live API, OpenCV minimap vision, and Claude Sonnet 4.6 strategy — delivered as synthesized voice advice. Async multi-source Python.
- Playbook** — interactive football play designer with drag-and-drop positioning, frame-by-frame route animation, and shareable exports. React, Konva canvas, Zustand.
- Tiko** — turns Twitch clips into content ideas via Whisper transcription + GPT-4. Flask / MySQL, Dockerized & deployed. [GitHub](#)
- WoWStory** — interactive quest story-graph over 10,000+ quests (React Flow + DAG layout) with spoiler-aware fog-of-war and Claude Haiku-generated recaps from parsed game data.

SKILLS

AI / LLM: Anthropic Claude API (Opus · Sonnet · Haiku · vision · structured outputs), OpenAI (GPT-4 / 4o · Whisper), Deepgram, prompt engineering, agentic development (Claude Code, Cursor)

Web / App: React, Next.js, React Native (Expo), TypeScript, JavaScript, Node / Express, FastAPI, Python, Tailwind CSS

Data / Infra: PostgreSQL, Prisma, MongoDB, SQLite, Docker, Vercel, AWS, SQL

Business / Tools: SAP (functional design & debugging), VBA, Tableau, Jira, Figma, stakeholder collaboration, process optimization

LEADERSHIP & SERVICE

- Elected Valero United Way campaign leader (contributed to \$7.9M raised); Eagle Scout (organized a volunteer project for the New Braunfels Food Bank).
- Full-time volunteer service in Frankfurt, Germany; elected Drum Major of a nationally recognized high-school band program.

EDUCATION

B.S. Information Systems, Brigham Young University — Marriott School of Business

Provo, UT · Apr 2025
